

Rickeys coin \$7500.00
for mine

10-21-80

B.II,

Enclosed you will find the 1794 C3 Large edge letters. If I remember correctly Roger graded this coin 12, as did Jim. Not having seen the coin for approx. 2 years I was pleasantly surprised for I believe the coin to be 15 or 20. (even though once cleaned)

This coin was purchased 1-76 in Miami Beach from Dennis Steinmetz at the FOM convention. Prior history unknown.

Since this coin obviously belongs in your collection I hope it is satisfactory.

I never felt that ~~this~~ this coin would leave my collection. But it really doesn't fit in. Hope we will come to terms.

Fondly

Rick Gross

P.S. Sorry for the lack of quality in this letter but I have been up 20 hours getting my inventory ready for the MAMA Show.

Thanks

Richard Auer

Dear Ricker:

Received the 1794 C3b in good order - many thanks. Hope this arrives to find you well & tested.

Enclosed is the 1834 Proof which I hope provides you much pleasure. I bought this in auction from Al Overton, Pueblo, Colo. Sept., 1958. I was just as "charged up" when I received this as you were in L.A. at the EAC in '78 & first viewed this coin. I'm pleased that you'll be the owner & it will have a lot of nice T.L.C. You may be assured you '94 will be well treated by me. Will you be in Long Beach next Feb. at the Hawaii ANA?? If you're coming to L.B. I'll give you a private showing of all the '94 - large & small edge letters & take you to dinner.

Our discussions on pricing our cherries has been rather vague. I've made a number of inquiries regarding prices of items like ours & have come up with this proposition. How does your coin @ \$7,500. for my coin seem to you?? Please understand that I'm not interested in making this our last coin deal. I'm sure we'll each be desirous of making sales, swaps, etc in the future between each other & that - most importantly - they'll be mutually beneficial. Let me hear from you on your feelings.
